Dear Harold,

For your new book "POST MORTEM", no doubt you will dwell at length upon the now admitted omission in the official Autopsy and Supplementary Report of J. F. K.'s adrenals. They clearly showed he had long had Addison's Disease - denied all along.

My capable secretary has followed up the first reports of the medical "Detective Story" this summer. She has received the articles enclosed herewith. No one has published these together - and certainly not in a non-medical magazine.

You are welcome to these - as to all else in our J. F. K. Collection.

Now let's get together soon - especially as to how we can be of help to you now.

Sincerely,

Arthur Price VTD
